DXRACER

TIDAL

Tidal Series Gaming Desk
Product Introduction

2025

666-1040 mm

Ultra-wide adjustable range with millimeter-level precision.

40 dB

Quiet operation with tested noise levels below 40dB (comparable to keyboard typing sounds).

50 kg

High load capacity - maintains smooth lifting even at full load without sticking.

Lifting system

PowerBoost Drive System

Smart Height Adjustment

One-touch height control to command your esports tempo.

Smart Control - Effortless Height Adjustment

666-1040mm Ultra-Wide Height Range - Seamlessly transition from esports throne to standing workstation with effortless adjustment.

Dual Preset Memory - Switch heights faster than enemy flashes. Smart control enables instant battle mode transitions.
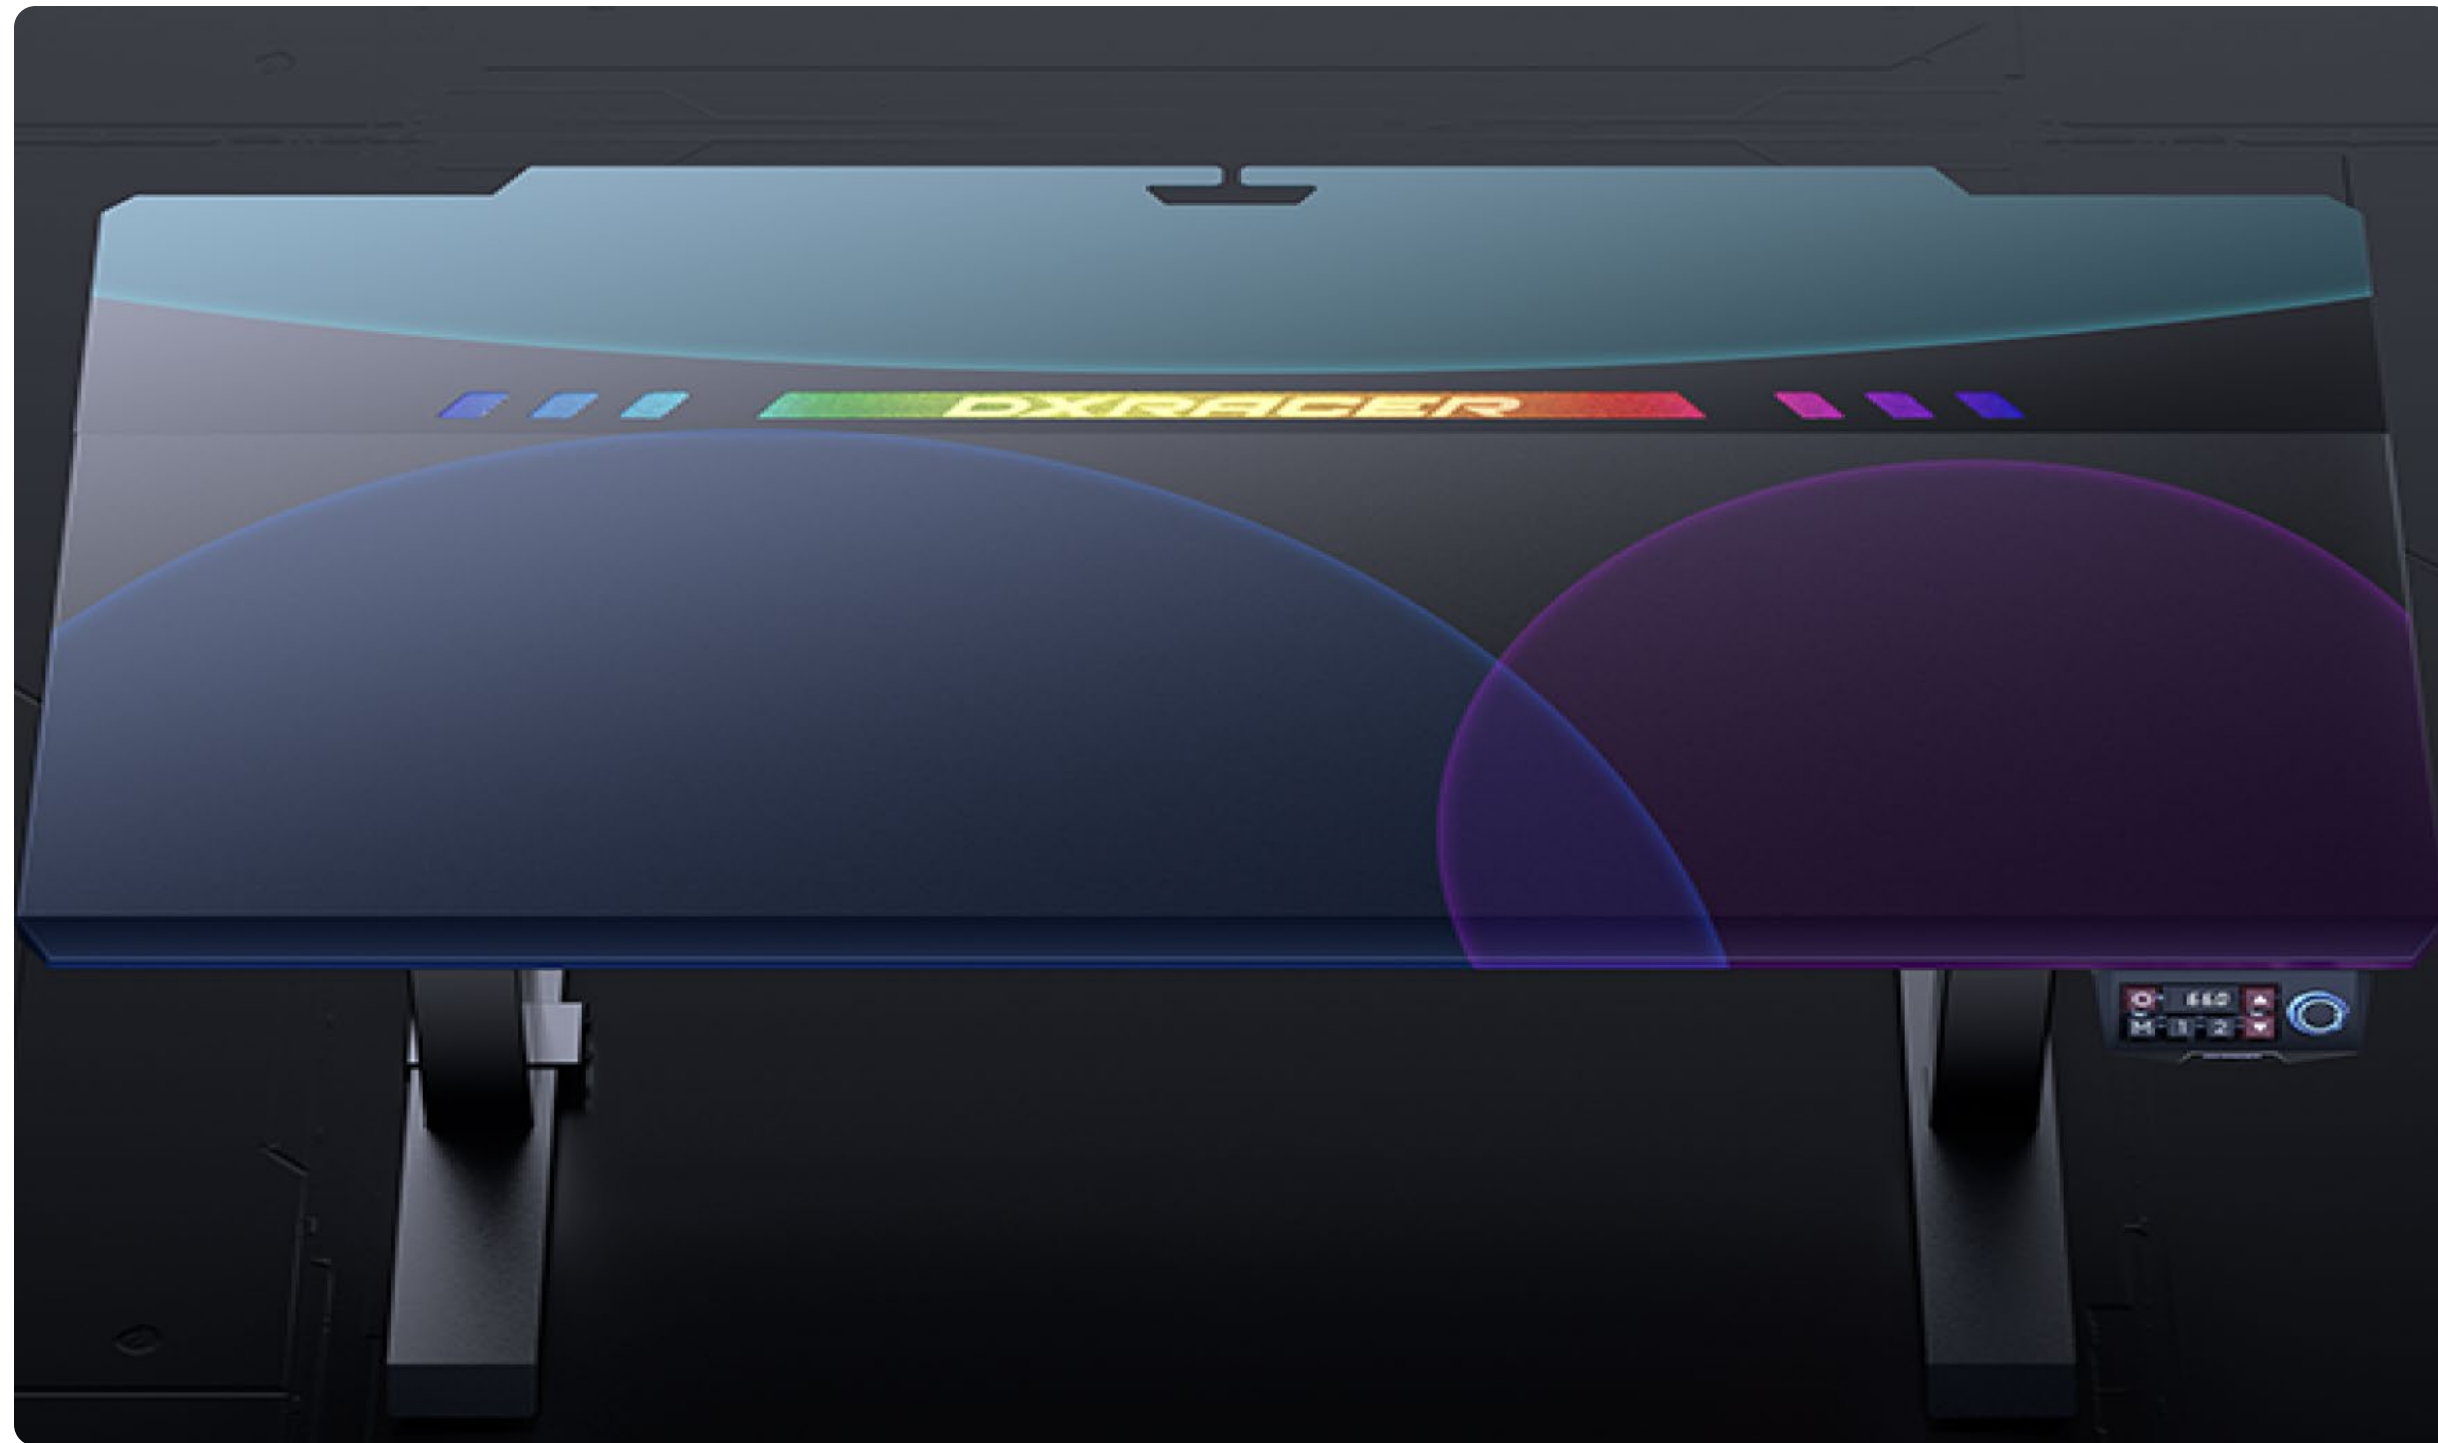

Cable Management

Cable Management Technology
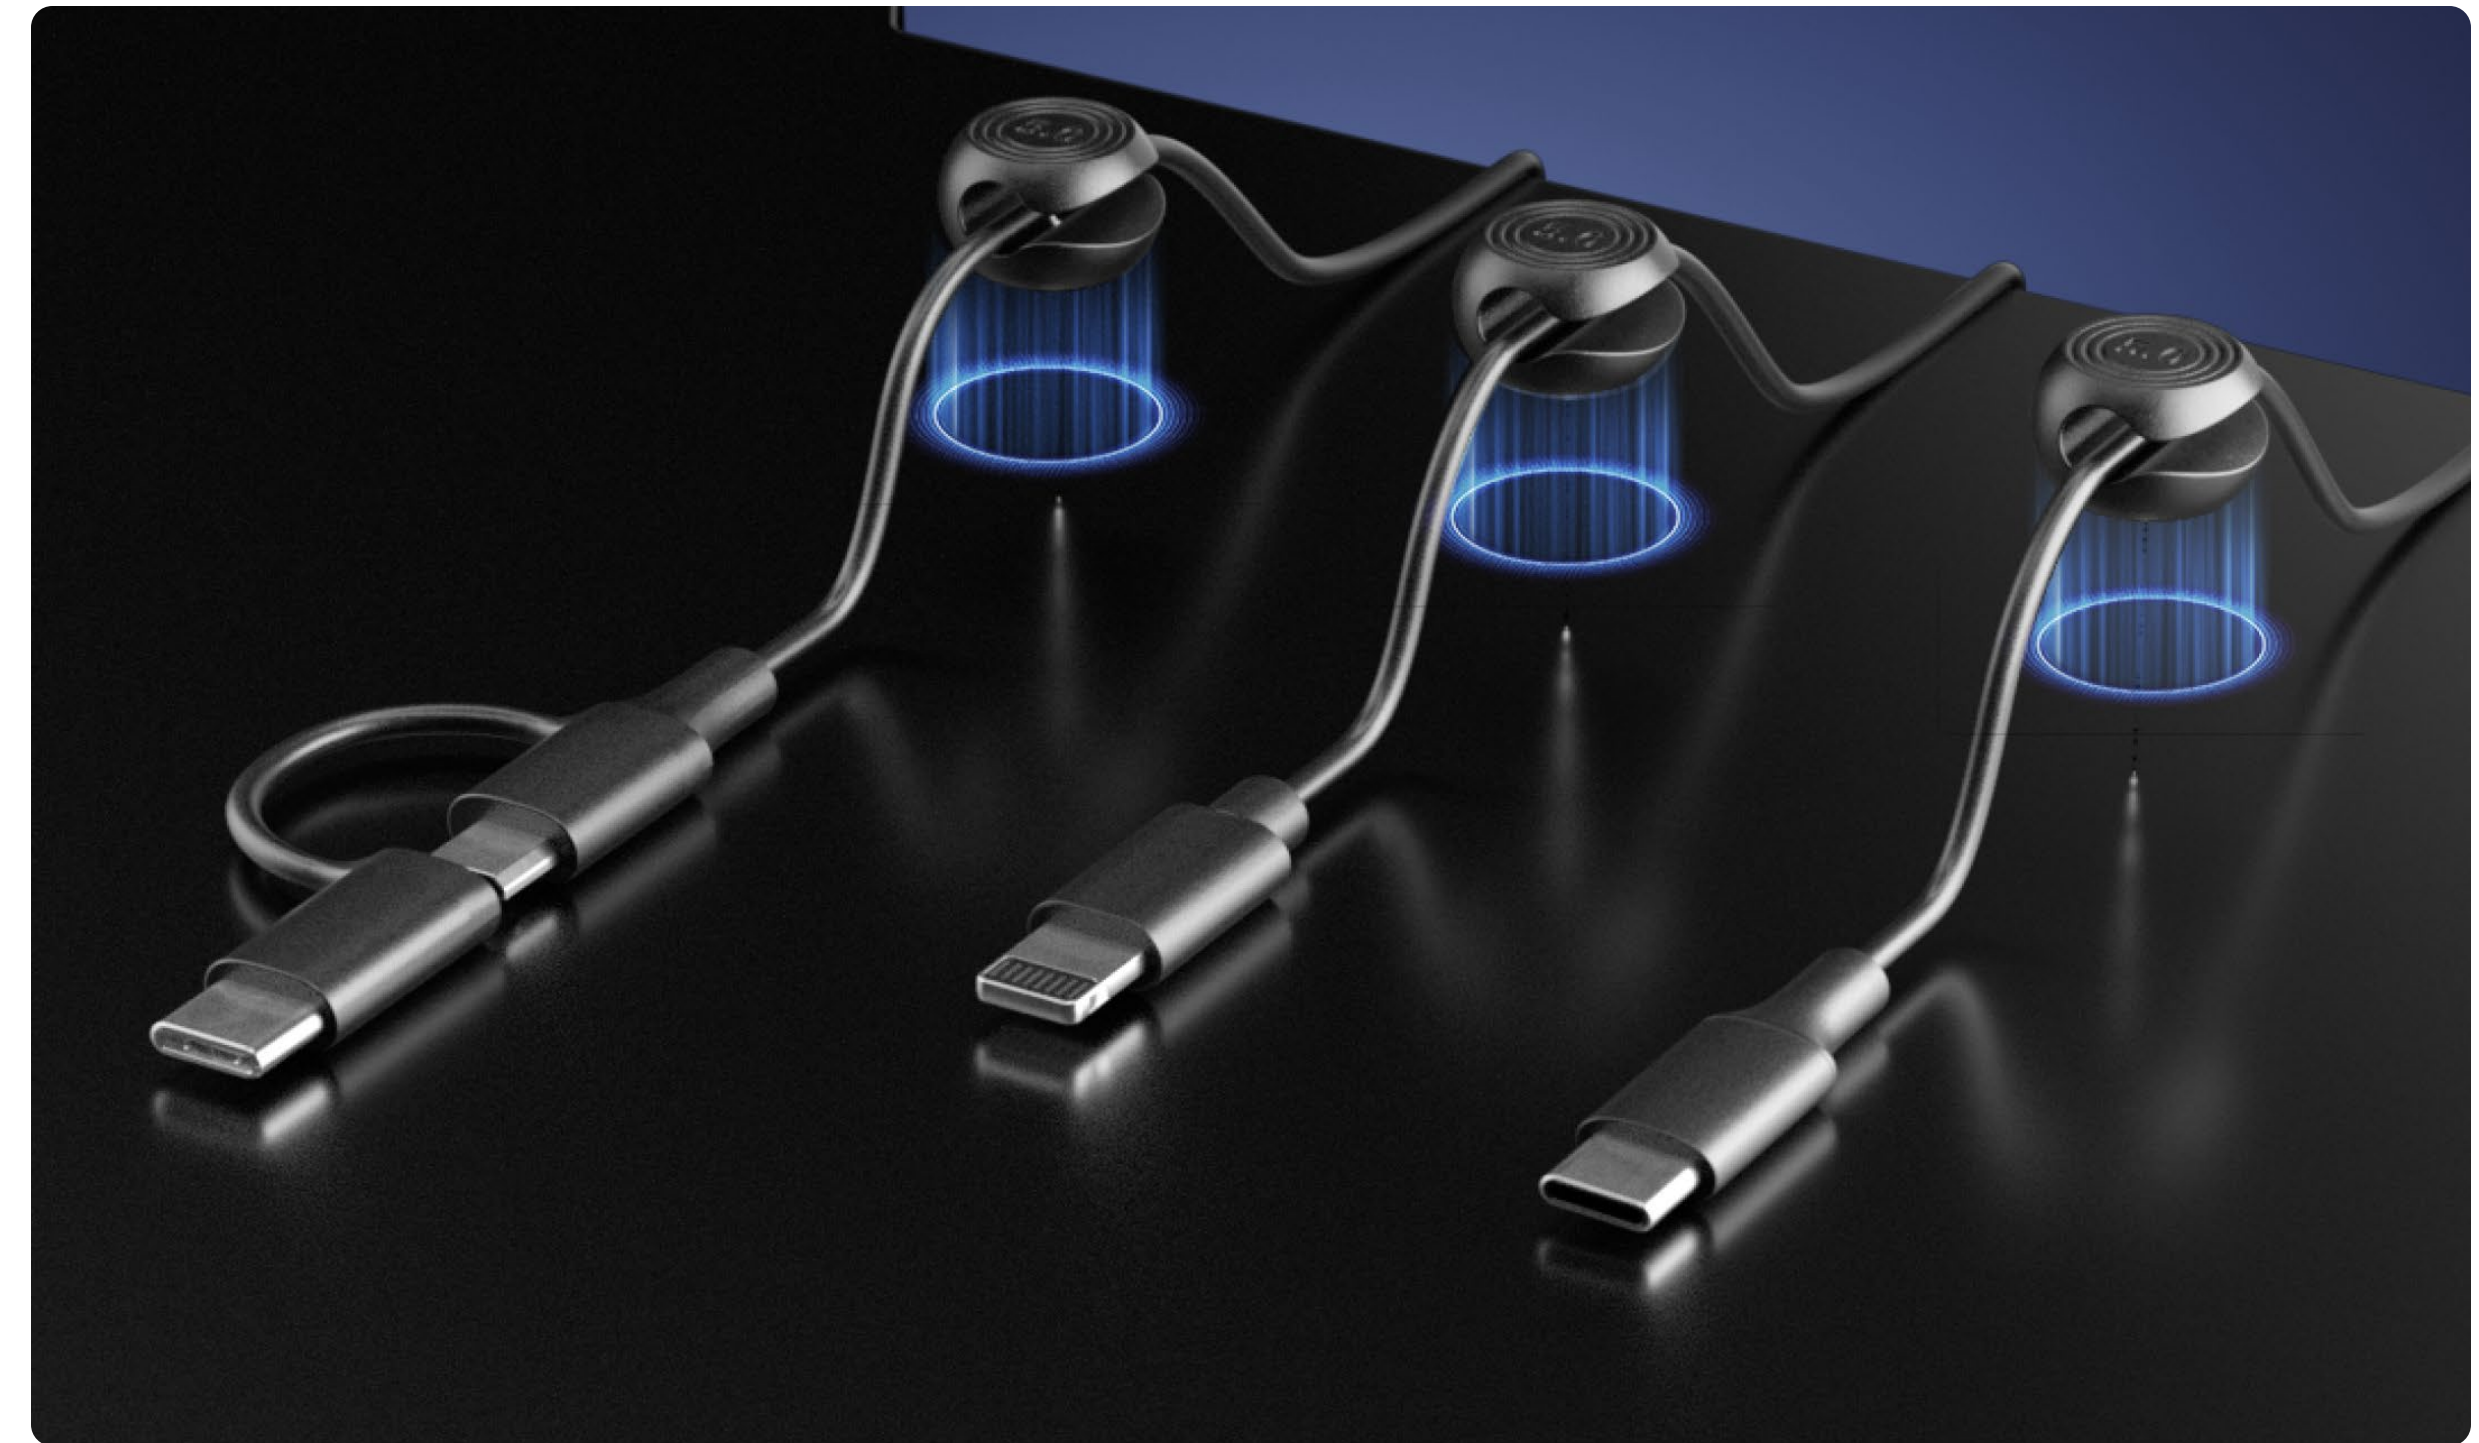

Integrated Cable Management Tray

minimalist aesthetics, easy cable management.

Vanishes all cables from sight, leaving pure esports intensity.

Desktop Organization Module

Ergonomic Design with Intelligent Zoning

Thoughtfully partitioned desktop keeps everything in order.

Magnetic cable anchors stay secure during intense movements—no slips, no breaks, stable as a fortress tower.

Under-Desk Cable Management Tray

High-Capacity Management Box hangs beneath the desk like a stealth warship bay—swallows power adapters, extension cords, and cable bundles into its "black hole.

Features pure copper side hooks, the guardian of minimalist aesthetics, leaving no detail overlooked.

Lighting System

Cosmos at Your Fingertips

Full-Range Adjustable RGB Lighting

Panoramic Surround Lightstrip – 360° deadzone-free luminous cascade

Photonic Warhead – Stacks visual overclocking buffs for you

Conquer the Battlefield, Light as Your Ally

RFull-Range RGB Color Customization:

Multiple lighting modes—from scorching lava red to cyber glacier blue—switch with a single click.

Stepless Brightness Adjustment:

Ultra-narrow LEDs deliver precise lighting control. Esports Mode maintains battle intensity, while Night Mode ensures undisturbed late-night gaming.
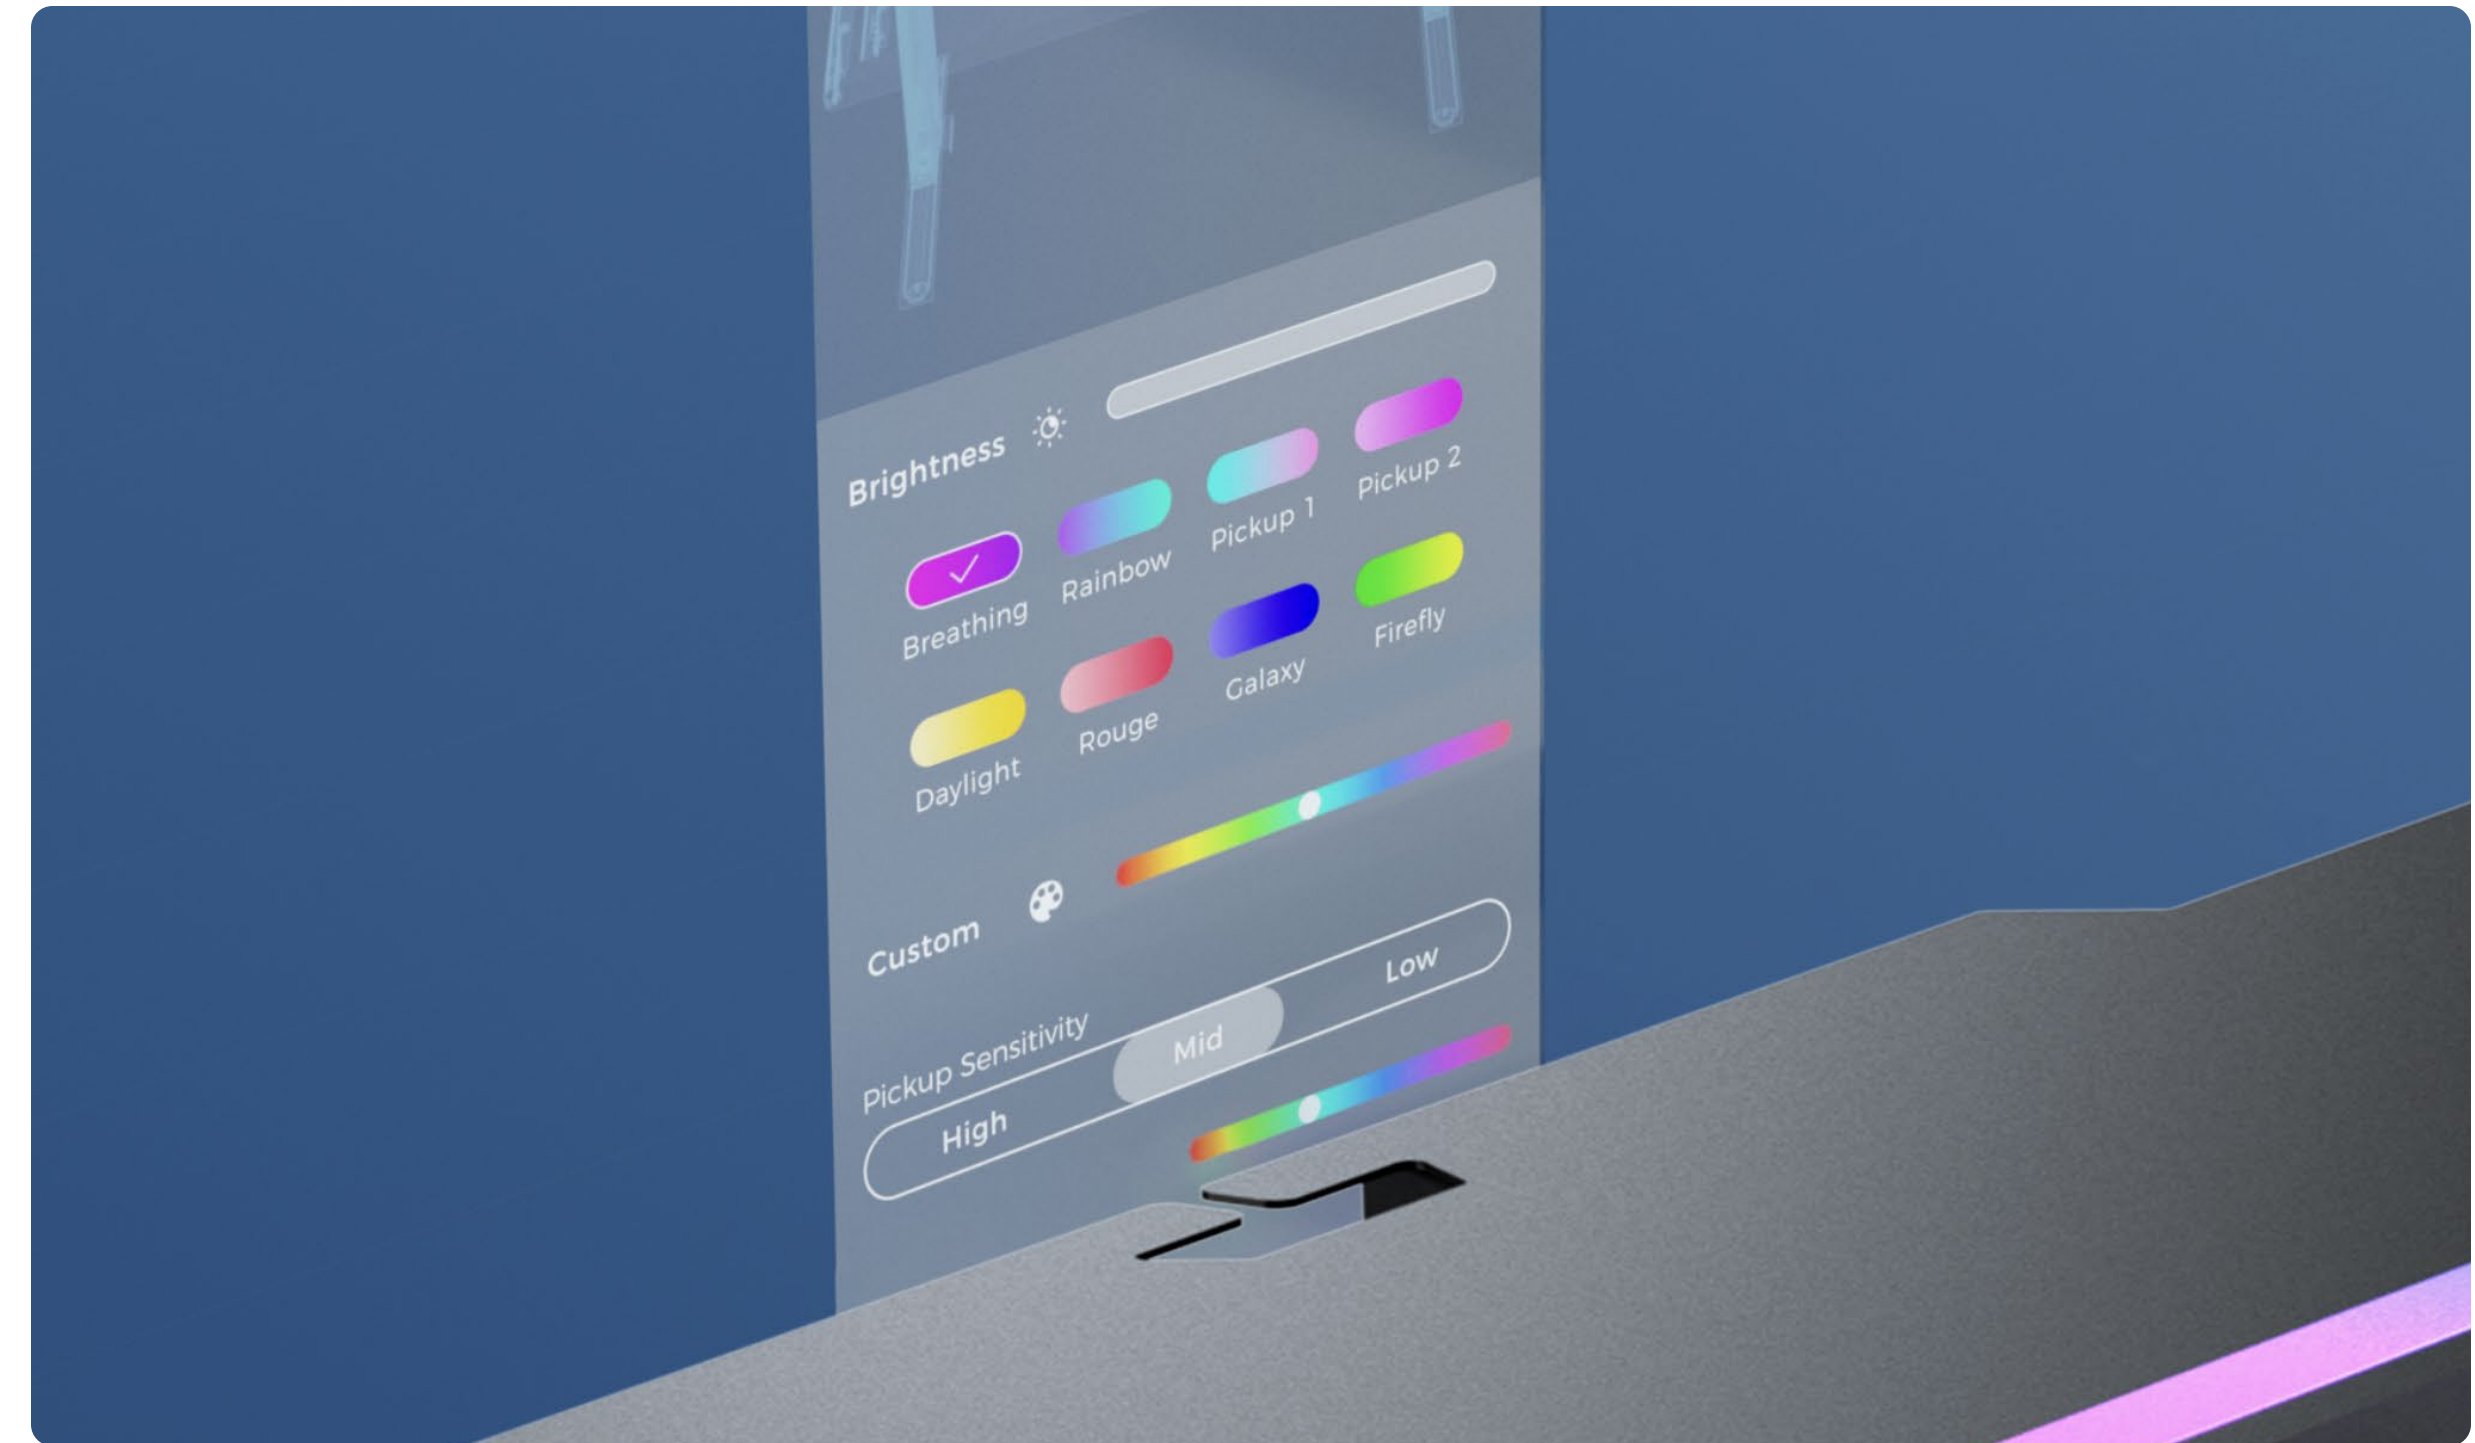

Control System

Smart Control-Multi-Thread Operation

Physical Button Adjustment, Mechanical Keyboard Tactile Feedback, Authentic and Reliable

App Bluetooth Control:

Fingertip swipe unlocks battlefield elevation control
