Craft Series Gaming Chair Product Introduction

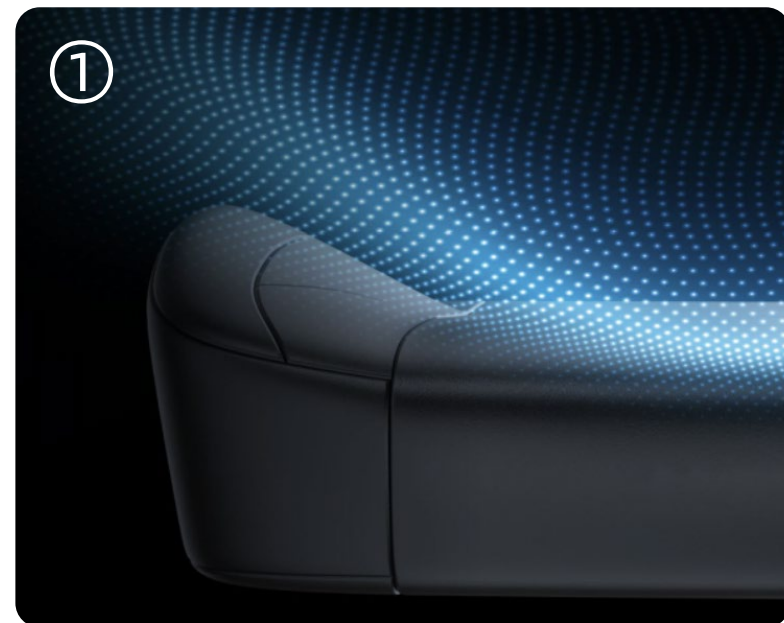

2025

Core Features

Cloud Comfort Gaming Chair

Ultimate Comfort Gaming Chair

- ① Cloud-Tech Layered Foam System
- ② Omni-Posture Adaptive Seat Design
- ③ 100,000-Stitch IP Embroidery Design

Cloud Comfort Gaming Chair

Cloud-Layered Foam System

25D slow-rebound foam for pressure relief + 50D high-density foam for body support.

The dual-density foam delivers 65% better pressure distribution, evenly dispersing weight and reducing pressure on hips and thighs.

Zero pressure, all-day comfort!

65%

Optimize Seated Pressure
Distribution Uniformity

60kg/m³
3X Denser vs Standard Foam*

DXRACER X-COMFORTTM FOAM

X-COMFORT refers to DXRacer's proprietary racing-seat foam technology. The '3X denser' claim compares to generic sofa foams on the market, without targeting specific brands.

Cloud Comfort Gaming Chair

Omni-Posture Adaptive Seat Design

Widened Seat Cushion (56cm) – Expands beyond standard gaming chairs (typically 48cm) with 15cm-radius ergonomic edges for pressure relief, delivering 35% more leg freedom. Supports both traditional (upright/reclined) and non-traditional postures (cross-legged/side-sitting).

Widened Seat Cushion

Cloud Comfort Gaming Chair

100,000-Stitch IP Koi Fish Edition Embroidery Design

Each Koi edition chair in our Craft Series requires an impressive 260,000 stitches to transform these intricate designs into reality.

Every embroidery pattern meets ASTM D4060 Standard H-3 requirements, with colorfastness exceeding Grade 4, ensuring your chair maintains its original vibrant appearance for years.

260,000 Stitches
Exquisite Embroidery (Koi Fish Edition)
